## VENEZIA MARATHON 2011

Sunday, October 23  
presentation and pre-inscriptions

Dear Runners,

42.195 kilometers / 26.224 miles

Distance measured and certified by AIMS/IAAF.

**There is no half marathon race. The race is only on the full marathon distance.**

Start is located in **Stra** (a small country town about 25 km west of Venice), at the beginning of "Riviera del Brenta", the beautiful riverside area where rich and noble Venetians built their vacation mansions in the 18th century.

The finish is in the historic centre of **Venice**, on the embankment named Riva Sette Martiri, in a scenic position facing the lagoon.

The first half of the race develops in a typical countryside landscape, following the course of the river in the "Riviera del Brenta".

The marathon goes through the centre of **Marghera** and **Mestre** (i.e. the boroughs of the city of Venice located on the mainland), runs for 3 kilometers inside **San Giuliano's Park** (the largest urban green area in Europe) and gets to Venice via the **Liberty Bridge** (a flat and straight bridge long just a little less than 4 kilometers).

The race proceeds in the Venice port area and reaches the city centre for the last kilometers, which are simply unique.

Marathoners run next to the **Giudecca Canal** to **Punta della Dogana**, where they cross the **Grand Canal** on a pontoon bridge, especially built for the race.

Passing by **Piazza San Marco** and the **Palazzo Ducale**, the marathon route gets to the finish line located in **Riva Sette Martiri**.
